Dear Tiager, You're my favorite character in RSJ so far. I was sad when knowing your sad past. But, I'm glad that you have great teacher who is support you.

I want to ask you some questions. What genre of music you like? Do you have girlfriend? I would like to see your drawing. Maybe you could send me some? :D

There are lots of books and resources that teach drawing, so grab one if you want to learn to draw better!

Ah, that felt great.

Hi Tiager. You really a cool guy and I was really curious about your favourite music instrument since you really like music so bad (mine is drum).

P. S. Love your headset so bad :3

Maria Seannovika

Dear Tiager, I think your drawing is so great! But, the problem is I can't draw. So, do you want to teach/share some of your drawing tricks? Thank You very much!

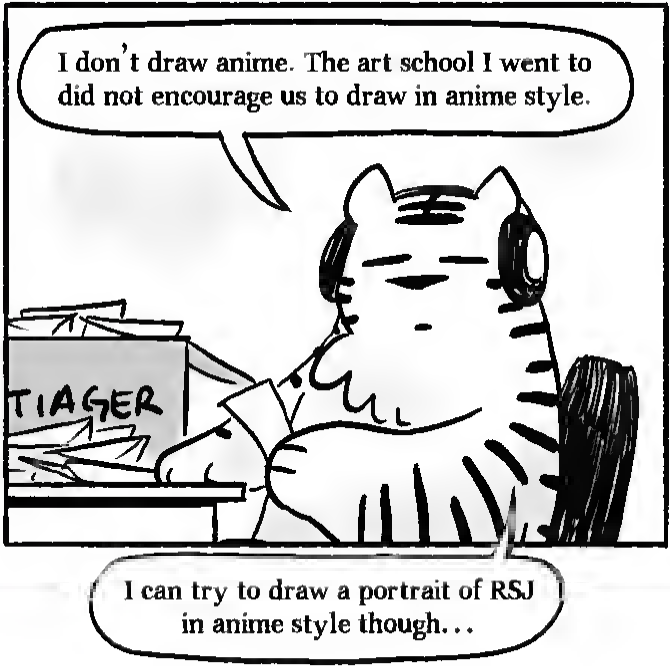
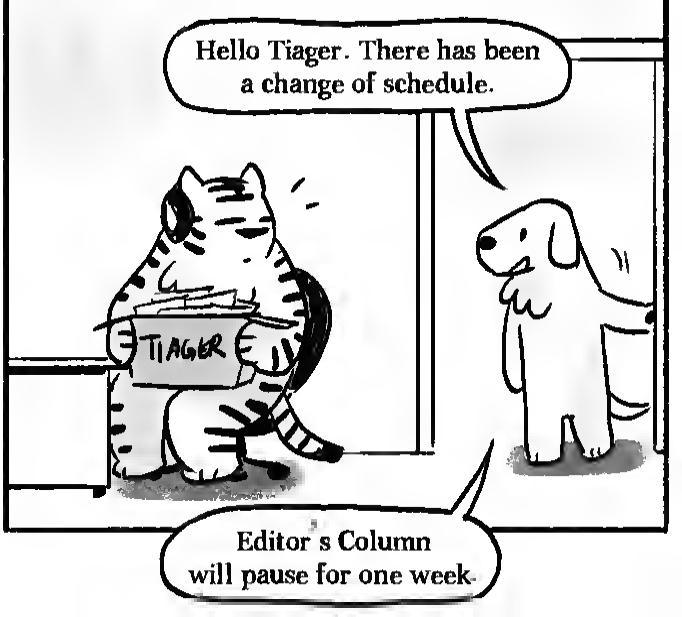
Sorry, I can only do this



I don't draw anime. The art school I went to did not encourage us to draw in anime style.
TIAGER
I can try to draw a portrait of RSJ in anime style though...



Hello Tiager. There has been a change of schedule.
TIAGER
Editor's Column will pause for one week.

I often dream of playing drums with effects.

Dear Tiager, What inspires you to continue drawing? Have you ever been encouraged to do another occupation, but didn't want to?

P.S: here's a new set of art tools and $25 roartune gift card so you can get more music!

Kelly

Ohh Mr.Tiager! Finally, it was your turn :D
I want to ask youu about your family! And I wonder what if your eyes open look like :p

Hey tiager, do you like to draw anime ?

Hey Tiager, I wanna borrow some CDs for this weekend.
Sure.

I don't have a girlfriend.

I just like creating things using my hands.
The desire to create is one of the deepest yearnings of our souls.

Playing musical instruments

I'm lucky to have parents who encouraged me to study art instead of other occupations.

I want my son to be a doctor.

Nice, but I think lawyer is better. Being a doctor is too tiring.

I want my daughter to be a teacher.

.....

Can you help me to take a photo?
Sure.

Dear Tiager,Do you always listen to music while working? Isn't it sometimes bothering you?? Plus, can you do a handstand please? ;) Thank you, Tiager

I also enjoy playing the guitar,
although I'm not very good at it.

I don't have any siblings or pets.

I once tried to keep a pet fish but it died because I was too focused on drawing.
I forgot to feed it...
Sorry...

I usually listen to music when I work.
TIAGER
The music blocks the background noises so I can concentrate on my work.

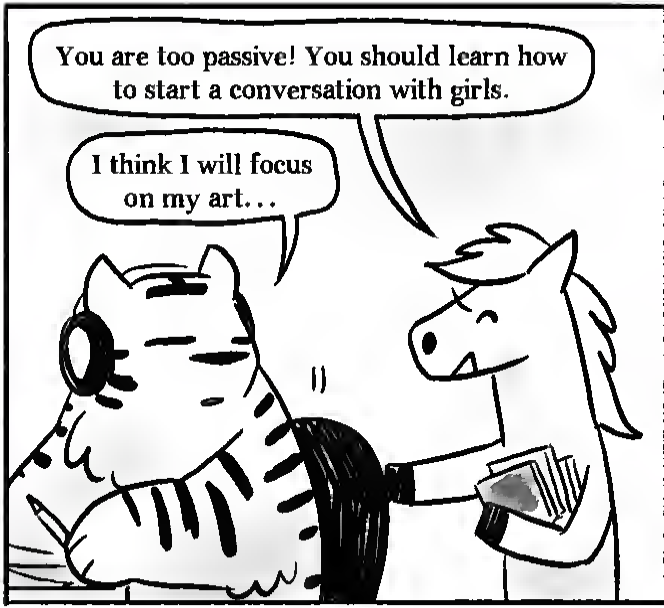
For a question for Tiager is what songs do you recommend when you want to uplift yourself when you're sad?

Sometimes I got caught up in sad songs as it relates to my situation but that's not really good in cheering me up :(

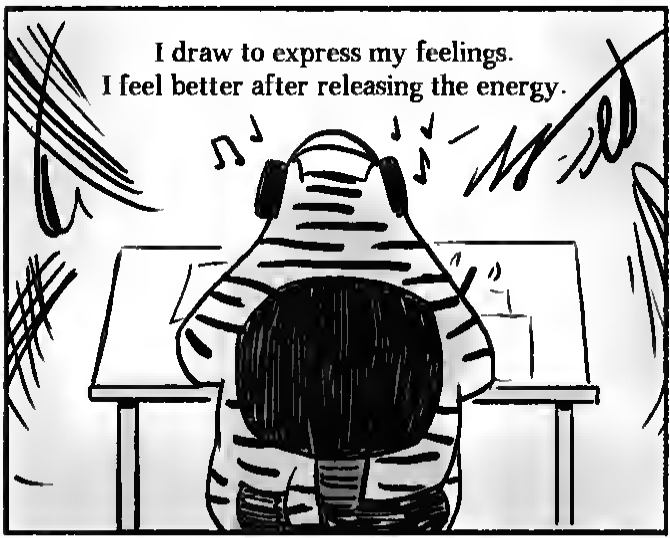
GalacticGalaxy

Hi Tiager! I was wondering more about your childhood. Do you have any siblings or pets of anykind? And do you ever draw portraits? If so, could you draw a portrait of the whole RSJ? Thanks Tiager!



You are too passive! You should learn how to start a conversation with girls.
I think I will focus on my art...

I don't listen to songs when I'm sad.
You only feel worse when you listen to sad songs.
TIAGER



I draw to express my feelings.
I feel better after releasing the energy.

I like to play the drums too.

Thank you.
I listen to many music genres, but I like jazz and R&B the most.
